

## **Open Morning Feedback June 2018**

In June we held an open morning during 'Shakespeare' week so parents could see how children learn in the classrooms. The feedback was overwhelmingly positive and I have collated some of your comments.

*"I could tell that the children really enjoyed the lesson."*

*"It's great to see that Shakespeare can be made interesting and accessible to young children."*

*"It was great to see P.E. too. The children were really trying their best."*

*"It really helped me to see the teacher sound out the words."*

*"I learnt how important it is to have a context when writing, e.g. letters to mummy duck. It is much more motivating."*

*"I saw lots of good strategies to teach tricky maths."*

*"The children are always participating during the learning process, rather than just listening."*

*"I especially liked seeing how the instructions were given to the children. The teachers made sure all the steps were clear to everyone."*

*"I am so impressed with the quality of the descriptions the children used following group discussion."*

*"I am always impressed with the children's behaviour."*

*"I loved the lesson! I want to go back to school myself!"*

*"I learned how to encourage my child to use her imagination."*

*"I saw how the children learn as a whole group, in pairs and individually, and how they support each other in their learning."*

*"I learnt how the children tackle a topic together, how they work in pairs to ask a question or discuss a topic and how they interact with the teacher when learning something new."*

*"I saw the exciting and inspiring way in which the teacher introduces the learning. It's wonderful to see."*

*"I love that art is incorporated into the lessons and that creativity is so encouraged."*

*"It is very useful to see the class in action, as opposed to rehearsed performances."*

*"The children are clearly so happy."*

*"Thank you for the opportunity to come and see the children learning."*

*"Many thanks to all the teachers and staff who put so much thought and care into our children's education."*
